5550 Reflex® SAE Class I LED, 11"

5550 Series LED microbars provide a super-compact yet powerful warning solution that offers the flexibility of either permanent or vacuum-magnet mounting. Featuring 12-24 VDC operation, the Reflex microbar uses high intensity LEDs to maximize light output. Users can select from 35 flash patterns on single-color or 91 flash patterns on dual-color, either via trigger wire on permanent mount models or cigarette plug switch on vacuum-magnet models.
