

DIRECTIONAL LEDS

ED5051 SERIES

SAE Class I Dual-Color Grille Mount

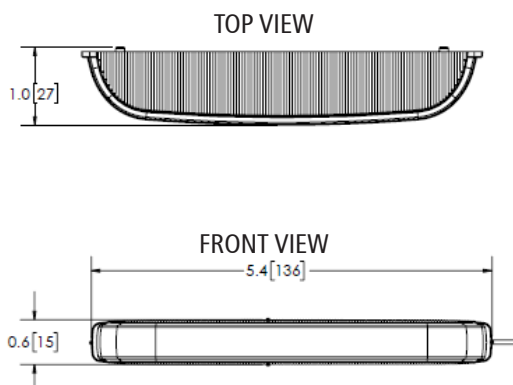

The ED5051 Series directional LED warning light offers the flexibility of two different color outputs within a single unit, comprised of 9 high-intensity LEDs (single-color) or 18 high-intensity LEDs (dual-color). This directional is great for hard-to-mount applications including the grille area or rear hatch and comes with 3 mounting options. SAE Class I light output, synchronization capability and the choice of 18 flash patterns for single-color and 36 flash patterns for dual-color allows the creation of an attention-getting, multi-color warning system with half the number of lights typically required. Each model can be programmed to flash each color option individually or alternate colors.

Models

PART NO.	COLORS	VDC	AMPS
ED5051A	Amber	12-24	0.75
ED5051R	Red	12-24	0.75
ED5051W	White	12-24	0.75
ED5051AB	Amber/Blue	12-24	0.75
ED5051AW	Amber/White	12-24	0.75
ED5051AG	Amber/Green	12-24	0.75
ED5051AR	Amber/Red	12-24	0.75
ED5051RB	Red/Blue	12-24	0.75

Features and Benefits

- 3 mounting options included
- 9 high-intensity LEDs / 18 flash patterns (single-color)
- 18 high-intensity LEDs / 36 flash patterns (dual-color)
- Synchronizable
- Polycarbonate housing and lens
- Temperature Range: -22°F to +122°F (-30°C to +50°C)
